## Graph Databases are a Hot Topic at the NoSQL Now! Conference this Year

[0 comments](#) [Add to Google](#) [Database Design](#) [Database Software](#) [Database](#) [MySQL Database](#)

Los Angeles, CA (PRWEB) July 12, 2012

DATAVERSITY? today announced its extensive agenda for its Graph Databases sessions taking place August 21 ? 23 at the San Jose Convention Center during the 2012 NoSQL Now! Conference and Expo.

Graph databases are HOT! They're a key NoSQL technology enabling a new class of analytical capabilities which simply hasn't been available before with conventional database technologies.

For example, graphs can answer questions like:
