About NoSQL Now!: NoSQL Now! is an educational conference and exhibit focused on the emerging field of NoSQL technologies. NoSQL (Not Only SQL) refers to the new breed of databases that are not based on the traditional relational database model, including document stores, key value stores, columnar databases, XML databases and graph databases. The NoSQL Now! Conference is designed to educate developers, data managers and architects on how these new technologies work, the applications they are best suited for, and how to deploy them. The first NoSQL Now event in August 2011 attracted over 500 people, and the upcoming 2012 event is expected to draw almost 1000 attendees. Additional details are available at <http://www.NoSQLNow.com>.
