

THE DEATH OF CREDIT CARDS

The plastic in your wallet is about to go the way of the typewriter, the VCR, and the 8-track tape player. When it does, **a handful of investors could stand to get very rich.** You can join them — but you must act *now*. An eye-opening new presentation reveals the full story on why your credit card is about to be worthless — and highlights one little-known company sitting at the epicenter of an earth-shaking movement that could hand early investors the **kind of profits we haven't seen since the dot-com days.**

GRAPH DATABASES ARE A HOT TOPIC AT THE NOSQL NOW! CONFERENCE THIS YEAR

Print Share

Los Angeles, CA, Jul 12, 2012 (PRWeb.com via COMTEX) -- DATAVERSITY(TM) today announced its extensive agenda for its Graph Databases sessions taking place August 21 - 23 at the San Jose Convention Center during the 2012 NoSQL Now! Conference and Expo.

Graph databases are HOT! They're a key NoSQL technology enabling a new class of analytical capabilities which simply hasn't been available before with conventional database technologies.

For example, graphs can answer questions like: How will your supply chain be affected by a flood in China? How does a particular financial product impact your portfolio risk? What personal relationships exist between government contractors and local politicians?

At NoSQL Now! Attendees will learn how graphs can be used to track the complex relationships between people, organizations and events while providing new answers and insights.

This year's featured Graph sessions will include:

Keynote Presentation on Creating Powerful New Applications with Graphs, Emil Elfrem, CEO of Neo Technology Tutorial: Introduction to Graph Databases, led by the technical team from InfiniteGraph. Intro

About NoSQL Now!: NoSQL Now! is an educational conference and exhibit focused on the emerging field of NoSQL technologies. NoSQL (Not Only SQL) refers to the new breed of databases that are not based on the traditional relational database model, including document stores, key value stores, columnar databases, XML databases and graph databases. The NoSQL Now! Conference is designed to educate developers, data managers and architects on how these new technologies work, the applications they are best suited for, and how to deploy them. The first NoSQL Now event in August 2011 attracted over 500 people, and the upcoming 2012 event is expected to draw almost 1000 attendees. Additional details are available at <http://www.NoSQLNow.com>.

Zacks Investment Research is one of the most highly regarded firms in the investment industry. The guiding principle behind our work is that there must be a good reason for brokerage firms to spend billions of dollars a year on stock research. Obviously, these investment experts know something special that may be indicative of the future direction of stock prices. From day one, we were determined to unlock that secret knowledge and make it available to our clients to help them improve their investment results.
